ROUTE 210 CONSTRUCTION TO REQUIRE SHORT-TERM AND LONG-TERM CLOSURES ON ROUTE 30 AND I-215, STARTING MONDAY

Construction of State Route 210 near the Route 30/Interstate 215 interchange in San Bernardino will require both short-term and long-term lane and ramp closures in this area, starting the week of March 28. The following closures are based on current construction schedules and may change, due to weather.

Short-term closures will take place between March 28 and April 1, from 9 p.m. to 5 a.m. Crews will be placing concrete K-rail barriers and re-stripping lanes to allow work to occur on the northern portion of the new Route 210. The following closures will be staggered throughout the week and will not occur simultaneously:

- I-215 northbound and southbound lanes, alternating outside and inside lanes
- Route 30 westbound, two left lanes from Miramonte Drive to Highland Avenue
- Route 30 eastbound on-ramp from Highland Avenue and the I-215 southbound loop ramp to eastbound Route 30
- Route 30 eastbound loop ramp to northbound I-215

Long-term closures will include:

- Closure of the southbound I-215 off-ramp to westbound Highland Avenue/Route 30, for a period of 18 months. This closure originally was scheduled for March 13 and now is set to start March 28.
- Closure of one westbound lane on Route 30 between Miramonte Drive and Highland Avenue, for a period of 18 months. One westbound lane and two eastbound lanes will remain open to drivers through this area. This closure will be in effect after the short-term closures are completed.
